

SMARTVISER SHOWCASES ITS INNOVATIVE TESTING TECHNOLOGY AT THE MOBILE WORLD CONGRESS.

SmartViser is planning a strong presence at the Mobile World Congress at Barcelona, from the 27th of February to the 2nd of March, with the support of its international team.

Simplify testing and benchmarking activities.

For more than 2 years, SmartViser has been simplifying the everyday life of testing and benchmarking teams by working with network operators, mobile manufacturers, retailers and media experts.

Serve clients worldwide.

This year, the innovative French company arrives in force at the Mobile World Congress. SmartViser's international team is now established all across Europe (Madrid, London, Helsinki), America (New-York, San Diego) in addition to its headquarter based in Rennes, France. SmartViser is now ready to operate in European, North American and Asian markets.

Customer Experience at the heart of SmartViser's innovation.

SmartViser will demonstrate daily at their booth the benefits of their automated test suite solutions, with relevant use cases inspired from day-to-day scenarios and complex problematics.

ABOUT SMARTVISER.

Founded in 2014, SmartViser is the forerunner of embedded testing solution for smartphones, tablets and networks, based on the virtual user concept. Dedicated to network operators, mobile manufacturers, retailers and specialized medias, SmartViser evolves into B2B market.

To this date SmartVisers' solutions have already conquered major telecom operators, mobile manufacturers, retailers and medias. The company's ambitions is to become the reference partner for connectivity challenges, based on its unique customer experience approach.
